THE CAMBELT ADVANTAGE

CAMBELT CUSTOM DESIGNS THE CONVEYOR TO YOUR SPECIFIC APPLICATION

With 3 Design options, Cambelt Engineers can create the ultimate conveyor for performance and efficiency.

- Specialize in HIGH INCLINE- Up to 75* Degrees
- Specialize in "DIFFICULT TO HANDLE MATERIAL"
- The Undisputed Heavyweight Belt Champions of the World. Our Belts can move material like no other company in the USA

When you have limited space and need to move material up at steep angles, CAMBELT is the GOLD STANDARD!

"The Cambelt conveyor we installed in 2022 has put our company in the number one position above the competition. We are able to win jobs that we used to lose"

- Cambelt Customer, Utah

"The Cambelt Engineers were amazing. They met with our team and made the designs fit our difficult application. They made it easy to get this conveyor designed, installed and running strong!"

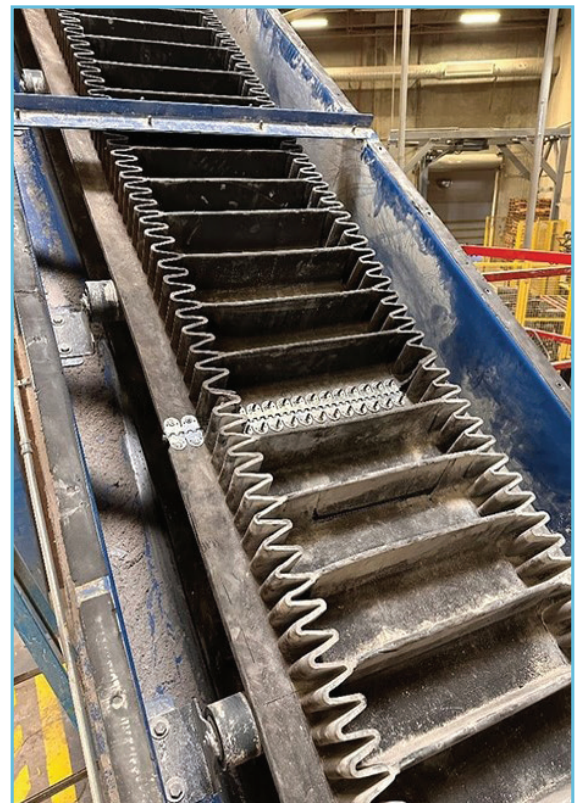

-Cambelt Customer in Canada since 2020

"We installed the conveyor 25 years ago and it has been running strong since. We move a very costic material and it stands up to it just fine. Amazing that we are just now replacing it!"

- Cambelt Customer since 1999 Utah

Customized Designs, Application Flexibility, High Performance and Superior Longevity - That's the Cambelt Difference!

- Drive over options
- Custom feeders / distribution designs
- Top Feed designs
- Enclosed or open options
- Ultimate in versatility and performance at inclines nobody else can handle!
